preference (check one): _____ Male _____ Female

Canine Hope for Diabetics provides vaccinations and worming if you, the Puppy Raiser, bring the puppy to the Canine Hope for Diabetics training facility.

If puppies are not considered for breeding stock, Canine Hope for Diabetics will reimburse for neutering by an approved veterinarian or provide neutering by our preferred veterinarian.

Canine Hope for Diabetics will provide occasional boarding at the training facility, including boarding of females in season.

I, the Puppy Raiser, understand that while raising a puppy is fun, it is also a job and that I must abide by the rules of raising a service dog puppy as set forth by Canine Hope for Diabetics.

Canine Hope for Diabetics reserves the right to remove and reassign puppies to alternate homes if guidelines are not followed, or as deemed necessary by the Board.
